

Feature Joliet In U. S. Rubber Magazine

Official publication for all U. S. Rubber company plants thruout the world, "Us" Magazine will salute Joliet in the September issue.

The Magazine has a circulation of 65,000 and goes to employees of the company's 33 plants in the many localities within the United States and plants in other countries.

The Joliet Story will be a six-page picture feature on U. S. Rubber company employees at the Kankakee plant of Joliet Arsenal. It also will show the relationship of employees to the City of Joliet, where they can relax, shop, etc. The story content was prepared by a member of the New York editorial staff, under the guidance of Edward Cnare, who is in charge of the industrial relations and publications department at KNK here.

PICTURES WERE taken last Friday afternoon by a famed staff member of a national picture agency which takes photos for other well-known magazines.

Scenes will include the American Institute of Laundering grounds, the Will County Court house, Joliet's city hall, the Civil War monument in the Courthouse Square, the formal gardens in Pilcher Park, and Joliet's downtown retail shopping center.

There also will be a scene of the Joliet Grade school band rehearsing. Many of the children of U. S. Rubber company employees here are in the grade school band.
